

Growing Gardeners

Gardeners know all the best dirt!

THANK YOU Super Sod!!!!

Super Sod donated a cube of their AMAZING soil to our JMG program.
We are so thankful!

Gardeners

Fall 2015

Fall Activities

We planted kale, onions, garlic, broccoli, lettuce, collard greens, and red cabbage for our Fall garden. The students pulled out old herbs and planted a fresh batch.

We learned about butterflies, planted new plants in the butterfly garden, and updated the plants in the front of the school.

We learned all about lavender. Each JMG student took home a lavender plant. We made lavender room spray and sachets.

We've harvested some of the lettuce and kale already. We even enjoyed kale smoothies in class. Each student took home a small bag of lettuce to share with their families.

JMG this Fall...
